

DINESH KUMAR K

Software Engineer · UI/UX Designer · Full Stack Developer

☎ 8667327262 | ✉ dineshkumaresan02@gmail.com | 📍 Hosur, Tamil Nadu, India

PROFESSIONAL SUMMARY

Results-driven Computer Science Engineer (2026) with a strong foundation in frontend development and UI/UX design. Adept at bridging the gap between design thinking and technical implementation — from crafting intuitive user interfaces in Figma to building responsive web applications with React and JavaScript. Proficient in AI-assisted workflows and prompt engineering, consistently leveraging tools like ChatGPT, Claude, and Cursor AI to accelerate prototyping, code generation, and creative problem-solving. Seeking a challenging role where design sensibility and development skills combine to deliver exceptional digital experiences.

SKILLS

Programming & Development: Java, Python, SQL, HTML, CSS, JavaScript, React

Design Tools: Figma, Adobe Photoshop

Productivity Tools: Microsoft Excel

AI & Prompt Engineering: ChatGPT, Claude, Gemini, DeepSeek, Perplexity, Cursor AI, Bolt, Antigravity

Soft Skills: Communication, Problem Solving, Team Collaboration, Creativity, Time Management

EDUCATION

B.E. Computer Science Engineering

Sona College of Technology, Salem · 2022 – 2026 · CGPA: 7.8

12th Standard (Higher Secondary)

Parimalam Matriculation Higher Secondary School, Hosur · 2021 – 2022 · 78.17%

10th Standard (Secondary School)

Parimalam Matriculation Higher Secondary School, Hosur · 2019 – 2020 · 80.8%

PROJECTS

FURCARE – Pet Care Mobile Application

- ▶ Designed end-to-end UI/UX solution encompassing user research, wireframing, user flow mapping, and high-fidelity prototyping.
- ▶ Prioritized usability, accessibility, and intuitive navigation to deliver a seamless mobile experience.

Intelligent Milk Procurement System

- ▶ Built a data-driven system to analyze milk quality and detect adulteration, improving procurement efficiency and quality control.

AM Packers and Movers – Business Website

- ▶ Designed and developed a fully responsive logistics website enabling users to book home shifting services and connect via WhatsApp.
- ▶ Focused on seamless UX, clear call-to-actions, and mobile-first design principles.

WhatsApp UI/UX Clone

- ▶ Recreated the WhatsApp interface with high fidelity including chat interactions, navigation flows, and component accuracy.

UI Redesign Case Studies

- ▶ Redesigned IRCTC Rail Connect, Where Is My Train, and an e-commerce platform into modern, user-friendly interfaces using contemporary design standards.

Hotel Management System

- ▶ Developed a comprehensive system for managing hotel bookings, customer records, and billing operations with a clean data layer.

Automatic Street Lighting System

- ▶ Built a sensor-based IoT solution to automate street lighting and reduce energy consumption.

Creative Packaging Design Projects

- ▶ Conceptualized and designed modern product and food packaging with cohesive branding themes and visually compelling aesthetics.

Familiarity with AI & PROMPT ENGINEERING

- ▶ Designed structured and optimized prompts to generate accurate, context-aware outputs across AI platforms (ChatGPT, Claude, Gemini, DeepSeek, Perplexity).
- ▶ Applied advanced prompting techniques including role-based prompting, iterative refinement, constraints, and few-shot prompting.
- ▶ Leveraged AI tools (Cursor AI, Bolt, Antigravity) for rapid prototyping, frontend code generation, UI/UX design, and workflow automation.
- ▶ Consistently improved output quality through step-by-step instructions, structured formatting, and domain-specific context injection.

CERTIFICATIONS

- ▶ NPTEL – Human Computer Interaction
- ▶ Infosys Springboard – Front-End Development
- ▶ Infosys Springboard – Digital Marketing
- ▶ Infosys Springboard – UI/UX Design
