Salem, Tamil Nadu, India | [dinesh.kumar.design@gmail.com](mailto:dinesh.kumar.design@gmail.com) | +91 98765 43210 | [linkedin.com/in/dineshkumar](https://linkedin.com/in/dineshkumar) | [github.com/d](https://github.com/dineshkumar)

## PROFILE

BE Computer Science Engineering graduate working across UI/UX design, frontend development and digital marketing. Comfortable owning a product decision from a Figma wireframe to a coded, responsive interface, and from there into a dashboard that reports whether it actually worked.

## EDUCATION

### BE, Computer Science Engineering

2018 - 2022

Coursework in data structures, DBMS, operating systems and software engineering, with electives in human-computer interaction.

## CORE SKILLS

- Figma
- CSS
- Python
- Digital Marketing
- HTML
- JavaScript
- SQL
- Excel Dashboard Design

## SELECTED CASE STUDIES

### FurCare - Pet Care App (UI/UX)

Booking and health-tracking app redesign for pet owners, built around trust and speed.

### WhatsApp UI Redesign (UI/UX)

Concept redesign decluttering chat threads and media sharing for low-end devices.

### IRCTC RailConnect Redesign (UI/UX)

Simplified booking flow combining search, availability and fare into one screen.

### Where Is My Train Redesign (UI/UX)

Live-tracking app redesign prioritising a single, large ETA readout.

### E-commerce App Design (UI/UX)

Ground-up shopping app concept with quick-add browsing and one-page checkout.

### Real Estate Landing Page (Website)

Hand-coded HTML/CSS/JS landing page focused on lead capture and load speed.

### Supplier Tracker Dashboard (Excel)

Live procurement dashboard for on-time delivery, cost variance and quality score.
